PERSONAL PROJECTS

Flask API for Employee management

- In these I created flask api with postgresql database for storing Employee details and apply curd operations.

Contactless switch

- It is a COVID19 prevention project in the public places, the user will Control the switch with hand gestures..

Login and register page

- It is having login page and register page for new users.
Here I used flask -sqlalchemy to store and display users.

Ecommerce website using HTML,CSS and JS

- <https://ecommerce1-alpha.vercel.app/>
It is static website for sneakers.
